

CECOR offers several transport base options in addition to the standard bases. **Tow** larger Sumpcleaners using two or four-wheel trailers. **Walk** Sumpcleaner through narrow aisles and tight quarters with PM (Pallet Mover) base. **Lift** smaller Sumpcleaners with forklift using the PL6 (Push Lift) base with longitudinal sleeves. **Drive** large Sumpcleaners long distances with a truck-mounted unit or move with ease through narrow aisles with the CB6 (ET) base unit.

### STANDARD BASES

#### PT (PUSH/TOW) BASE

Hand push and short haul tow operation. PT base is standard on the 90, 140 and 175 gallon single tank units and 60/60 and 100/100 combination tank units.

### OPTIONAL BASES

#### PL6 (PUSH LIFT) BASE

Hand push or forklift transport. Six-wheels, 2 rigid and 4 swivel casters with 8" diameter x 2" phenolic roller-bearing wheels, for mobility in tight places. For forklift transport, longitudinal sleeves have two-way entry. Available on units up to 200 gallon capacity.

SE10-90PL6

#### CB6 (ET) BASE

Combine large capacity Sumpcleaner with industrial truck for long hauls between collection and disposal or treatment. Industrial trucks accommodate Sumpcleaners up to 500 gallon capacity.

CA5-200/200CB6

#### PM (PALLET MOVER) BASE

Pallet truck engages swivel skid, raises to transport height and maneuvers Sumpcleaner through narrow aisles and tight turns. Use your own standard 27-inch pallet truck or order complete.

SA5-400PM

## CB Base Move large tanks easily.

Universal Mount is for use with industrial platform trucks, walk/ride trucks, and 2 or 4 wheel trailers. The universal mounting base cradles the sumpcleaner tank. Base is fitted with bolt flanges for easy installation on powered in-plant vehicles or trailers. The design permits a wide variety of handling options for large tank sumpcleaners.

SP50-300CB3

CP50-200/200CB1-C

SP50-600CB2

- CB1 BASE:** Custom base for mounting on trailer or truck (does not include trailer or truck).
- CB2 BASE:** Choose 2-wheel or 4-wheel trailer for towing. Available on 300, 400, 500, and 600 single tank units. Also 150/150, 200/200, 250/250 and 300/300 combination tank units.
- CB3 BASE:** Sumpcleaner mounted on a propane powered platform truck. Available on 175, 300, 400 and 500 gallon single tank units and 100/100, 150/150, 200/200, and 250/250 gallon combination tank units.
- CB4 BASE:** Sumpcleaner mounted on a gasoline powered platform truck. Available on 175, 300, 400 and 500 gallon single tank units and 100/100, 150/150, 200/200 and 250/250 gallon combination tank units.
- CB5 BASE:** Sumpcleaner mounted on an electric powered platform truck. Available on 175, 300, 400 and 500 gallon single tank units. Also 100/100, 150/150, 200/200 and 250/250 gallon combination tank units.
- CB6 BASE:** Sumpcleaner mounted on an electric walk/ride pallet-type truck. Available on 175, 300, 400 and 500 single tank units. Also 100/100, 150/150, 200/200 and 250/250 gallon combination tank units.
