FILTER FINE GRINDING SOLIDS WITH CENTRIFUGES

Start with better filtration, improve product finishes and tool life, and reduce coolant costs.

- Eliminate disposable media
- Service multiple grinders
- Achieve 2-10 micron clarity
- Remove up to 66 lbs/hr of sludge
- Buy components or complete systems

RECYCLE COOLANTS AND OILS

Cut costs and increase productivity with the Freddy EcoVac and TOS:

- In-sump coolant cleaning
- Reduce coolant disposal and purchase costs
- Improve operating productivity
- Coordinate and better manage coolant control

EcoVac 200

TOS

UFV 750 TVSOS

RECLAIM, RECYCLE, DISCHARGE

Ultrafiltration technology — the right equipment solution for:

- Mop water
- Oily waste water
- Wash water
- Spent metalworking coolants
